Public Notice of Proposed Zoning Regulations

Notice of Intended Action: The Zoning Board hereby approves the publication of the following proposed regulations. The Zoning Board intends to adopt these regulations, pursuant to the Administrative Procedure Act, 1 CMC § 9104(a). If adopted, these regulations will become effective ten days after publication of a Notice of Adoption in the Commonwealth Register. 1 CMC § 9105(b).

Authority: These regulations are promulgated under the authority of 2 CMC § 7221 (d), which requires the Zoning Board to promulgate regulations to carry out the intent and purposes of the Zoning Code of the Commonwealth of the Northern Mariana Islands; pursuant to Section 309 of the Saipan Zoning Law of 2013, 10 CMC § 3511, which authorizes the Board to administer and enforce it and to promulgate regulations to carry out its intents and purposes; and Section 412 of the Saipan Zoning Law which regulates outdoor intensive amusement activities such as rental of all-terrain vehicles and motorcycles as a conditional use.

Terms and Substance: These proposed regulations specify conditions to be imposed on all conditional use permits for all-terrain vehicle, utility vehicle, and motorcycle rental establishments to address community concerns including noise, emissions, erosion and other environmental concerns and would allow the Zoning Administrator to take administrative action to abate nuisances caused by operators who fail to conform their activities to the prescribed conditions.

On December 29, 2015, the Zoning Board imposed a moratorium on applications for conditional use permits for all-terrain vehicle rental establishments due to community concerns relating to excessive noise, dust, and public safety as well as environmental concerns primarily relating to erosion caused by off-road use of ATVs. The Zoning Board has lifted said moratorium pending promulgation of regulations that address the community's concerns.

The Zoning Administrator has reviewed zoning restrictions, noise ordinances, and other regulatory regimes of other US jurisdictions and has determined that imposition of a noise limit of 92 decibels for all-terrain vehicles, utility vehicles, and motorcycles in commercial use is a reasonable, achievable, and appropriate restriction. Existing operators utilize large groups of all-terrain vehicles, utility vehicles, and/or motorcycles simultaneously with off-road tours. The laws of physics dictate that noise emissions are additive.

Accordingly, the Zoning Administrator has determined that it is necessary to establish a collective noise limit for operation of all-terrain vehicles, utility vehicles, and /or motorcycles in groups. These regulations establish that collective limit at 105 decibels, the rough equivalent to the noise emitted by a gas-powered brush cutter (line trimmer).

Saipan residents have expressed concern regarding the operation of all-terrain vehicle rental establishments near residences. These regulations restrict the proximity of any such establishment to residences and other sensitive areas such as schools, churches, passive parks, and golf courses. No covered ATV, UTV, or motorcycle may be operated closer than 250 meters from these restricted areas. This is to ensure that noise levels generated by these permitted activities are no more than 50 decibels in these sensitive areas. The proposed regulations also prohibit visible exhaust emissions and restrict operation of covered all-terrain vehicles, utility vehicles, and motorcycles to improved trails designed, constructed and maintained to prevent erosion.

Directions for Filing and Publication: These proposed amendments shall be published in the Commonwealth Register in the section on proposed and newly adopted regulations (1 CMC § 9102(a)(1)) and posted in convenient places in the civic center and in local government offices in each senatorial district, both in English and in the principal vernacular (1 CMC § 9104(a)(1)).

Comments: Interested parties may submit written comments on the proposed regulations to Therese Ogumoro, Zoning Administrator, via U.S. mail to Caller Box 10007, Saipan, MP 96950, or via email to Therese.Ogumoro@zoning.gov.mp. Comments, data, views, or arguments are due within 30 days from the date of publication of this notice. 1 CMC § 9104(a)(2).

PART 600 – ALL TERRAIN VEHICLE, UTILITY VEHICLE, AND MOTORCYCLE RENTAL ESTABLISHMENTS

The regulations in this part provide for and impose conditions upon the issuance of zoning permits for all-terrain vehicle, utility vehicle, and motorcycle rental establishments on the Island of Saipan. Zoning for these types of establishments are regulated as Amusement, Outdoor Intensive pursuant to the Saipan Zoning Law of 2013 (the "Zoning Law"). Uses that fit within the definition of Amusement, Outdoor Intensive as defined in Section 412 of the Zoning Law are permitted as conditional uses only in the Rural (excluding those areas north of Tanko Drive/ Rakka Drive/ Chalan Matuis Drive (Map Sheets

5 & 7)), Beach Road, and Tourist Resort zoning districts. The regulations in this part further restrict and limit all-terrain vehicle, utility vehicle, and motorcycle rental establishments to the Rural zoning district south of Tanko Drive/ Rakka Drive/ Chalan Matuis Drive (Map Sheets 5 & 7) and prohibit their operations within the Beach Road and Tourist Resort districts. The regulations in this part are additive and supplement the other regulations and provisions in this title and the Zoning Law. In the event of any conflict with any other provision of law or regulation, the more restrictive provision shall prevail.

§ 165-30.1-601 ATV, UTV, and Motorcycle Rental Establishments Limited to Rural Zoning District

(a) Establishments Confined to Rural Areas –No conditional use permit may be issued, given, or approved for operation of any establishment (including operation of its equipment) offering for rent (for consideration of any kind, whether payable within or outside of the Commonwealth of the Northern Mariana Islands) any all-terrain vehicle, utility vehicle, or motorcycle on the Island of Saipan outside of the Rural Zoning District, or within the Rural Zoning District but north of Tanko Drive/ Rakka Drive/ Chalan Matuis Drive (Map Sheets 5 & 7). All conditional use permits for such use shall provide as a condition the operator, owner, management and personnel's full conformance to and compliance with these regulations.

(b) Compliance Required –Operation of any all-terrain vehicle, utility vehicle, or motorcycle rental establishment in violation of the regulations in this part is deemed to be a public nuisance within the definition set forth in Article 1 of the Zoning Law. In addition to any other powers bestowed by law or regulation (including without limitation those set forth in Section 1209 of the Zoning Law), the Zoning Administrator may seize any ATV, UTV, or motorcycle whose operation is deemed a public nuisance hereunder, including without limitation any such machine(s) or equipment emitting noise, exhaust, or dust in excess of those thresholds established in this part, or found to be operating or have been operating in non-permitted areas or operating on unpermitted trails or thoroughfares. Such machine(s) and/or equipment shall forfeit to the Commonwealth in such case.

§ 165-30.1-602 Mandatory Permit Conditions for ATV, UTV, and Motorcycle Rental Establishments

At a minimum, all Conditional Use Permits for all-terrain vehicle, utility vehicle, and/or motorcycle rental establishments shall contain the following conditions. The Board may impose such additional conditions as it may in its sole discretion find appropriate or desirable.

(a) Maximum Permitted Noise Levels –No all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder shall emit noise in excess of 92 decibels measured at a 45-degree angle 20 inches from the end of its muffler. No group of all-terrain vehicles, utility vehicles, motorcycles or combination thereof operated simultaneously by permitted establishment or its patrons may collectively emit noise in excess of 105 decibels measured one meter from any one member of the group.

(b) Restricted Areas –No all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder shall be operated within 250 meters of the following:

- (i) Area of Particular Concern (as defined by the Division of Coastal Resource Management);
- (ii) Village residential zoning district;
- (iii) Village commercial zoning district;
- (iv) Public resource zoning district;
- (v) House, apartment, hotel, or bed and breakfast;
- (v) Church;
- (vi) School;
- (vii) Daycare or other childcare facility
- (viii) Library;
- (ix) Golf Course;
- (x) Passive park;
- (xi) Beach; or
- (xii) Conservation area, mitigation bank, culturally sensitive or historically sensitive place

Neither shall any all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder or group thereof pass so close to any of the foregoing (whether or not it is within or outside of the mandatory 250-meter perimeter set forth above) that its (or their) noise emissions may be measured at levels greater than 50 decibels at any such location. The Administrator may rely upon measurements taken by residents, occupants and/or observers at such locations provided they are corroborated by one or more witnesses or are contemporaneously recorded on some visual or electronic media for enforcement of this condition.

(c) Hours of Operation – Operation of All-terrain vehicles, utility vehicles, and motorcycles whose use is permitted hereunder shall be limited to the time from three-hours after sunrise until three-hours before sunset. United States government issued publications, tables, and calculators shall be determinative to establish the time of sunrise and sunset on any given day on Saipan. In the event of any discrepancy among published data, the Administrator’s selected source shall prevail.

(d) Permitted Trails –Operation of All-terrain vehicles, utility vehicles, and motorcycles whose use is permitted hereunder shall be limited to improved trails approved by the Division of Coastal Resource Management and maintained by permittee. Such trails shall be constructed from permeable materials designed to allow surface water to penetrate and drain without intensification or redirection of water flows, and the borders thereof shall be planted, landscaped and maintained so as to filter any runoff and to prevent erosion that may otherwise result from ATV/UTV/motorcycle use. All trail materials shall be such that no dust rises or is otherwise emitted or projected from the trail surface when used. No all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder shall be operated on any public highway, road, street, or right of way.

(b) Restricted Areas –No all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder shall be operated within 250 meters of the following:

- (i) Area of Particular Concern (as defined by the Division of Coastal Resource Management);
- (ii) Village residential zoning district;
- (iii) Village commercial zoning district;
- (iv) Public resource zoning district;
- (v) House, apartment, hotel, or bed and breakfast;
- (v) Church;
- (vi) School;
- (vii) Daycare or other childcare facility
- (viii) Library;
- (ix) Golf Course;
- (x) Passive park;
- (xi) Beach; or
- (xii) Conservation area, mitigation bank, culturally sensitive or historically sensitive place

Neither shall any all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder or group thereof pass so close to any of the foregoing (whether or not it is within or outside of the mandatory 250-meter perimeter set forth above) that its (or their) noise emissions may be measured at levels greater than 50 decibels at any such location. The Administrator may rely upon measurements taken by residents, occupants and/or observers at such locations provided they are corroborated by one or more witnesses or are contemporaneously recorded on some visual or electronic media for enforcement of this condition.

(c) Hours of Operation – Operation of All-terrain vehicles, utility vehicles, and motorcycles whose use is permitted hereunder shall be limited to the time from three-hours after sunrise until three-hours before sunset. United States government issued publications, tables, and calculators shall be determinative to establish the time of sunrise and sunset on any given day on Saipan. In the event of any discrepancy among published data, the Administrator's selected source shall prevail.

(d) Permitted Trails –Operation of All-terrain vehicles, utility vehicles, and motorcycles whose use is permitted hereunder shall be limited to improved trails approved by the Division of Coastal Resource Management and maintained by permittee. Such trails shall be constructed from permeable materials designed to allow surface water to penetrate and drain without intensification or redirection of water flows, and the borders thereof shall be planted, landscaped and maintained so as to filter any runoff and to prevent erosion that may otherwise result from ATV/UTV/motorcycle use. All trail materials shall be such that no dust rises or is otherwise emitted or projected from the trail surface when used. No all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder shall be operated on any public highway, road, street, or right of way.

(e) ATV/UTV/Motorcycle Storage –All all-terrain vehicles, utility vehicles, and motorcycles whose use is permitted hereunder shall be stored within the permitted establishment and shall be screened from view from all adjacent parcels, roads, streets, and rights of way.

(f) Emissions –No all-terrain vehicle, utility vehicle, or motorcycle whose use is permitted hereunder shall emit visible exhaust. All such equipment shall be properly maintained and shall be immediately retired from use at such time as it cannot be operated without visible exhaust emissions. No establishment permitted hereunder shall utilize any all-terrain vehicle, utility vehicle, or motorcycle that does not meet United States Environmental Protection Agency standards and regulations or which may meet such requirements but fails to demonstrate a factory issued and installed sticker, placard, or other visible indication of such compliance.

§ 165-30.1-603 Transition Period for Non-Conforming ATV, UTV, and Motorcycle Rental Establishments

In adoption of the provisions of this part, the Board has determined that expediting elimination of nonconforming all-terrain vehicle, utility vehicle, and motorcycle rental establishments is reasonable, and pursuant to its authority given in Section 1203 of the Zoning Law, the Board provides for the amortization for the elimination of such non-conforming uses over a period of eighteen (18) months from the effective date of these regulations. During such transition period operators of non-conforming establishments shall immediately comply with the noise restrictions and hours of operation set forth in this part. Existing previously permitted but now non-conforming uses shall come into full compliance with the provisions of this part within such eighteen (18) month amortization period or at the end of such period shall immediately cease operations.
